

## ARAKO spol. s r. o. Traditional Czech manufacturer of industrial valves

ARAKO spol. s r. o. in Opava (Czech Republic, belongs to the engineering division of the corporation Rosatom – Atomenergomash) is a traditional Czech manufacturer of industrial valves in accordance with the quality standard ISO 9001. ARAKO valves are used for the power and nuclear power, chemical, & petrochemical industries, among others. The company’s production processes are firmly rooted in a sixty-year old tradition of development and industrial production. The experience that has been gained in the course of this time ensures that any customers’ standards, expectations, or special requirements are met quickly and professionally, with the use of proven procedures and with maximum emphasis on the quality of the supplied products and services.

### PRODUCTS

The ARAKO product range includes gate valves, globe valves, high-pressure globe and gate valves, swing check valves, lift check valves, strainers, ball valves, blow-down and continuous blow-down valves, energy reducers and special valves for nuclear power appliances such as quick acting valves, solenoid pilot valves, bellow-sealed globe valves, and KIP valves.

### SERVICES

The company operates its own engineering department. Here designers make use of the latest 3D imaging technologies provided by CAD systems, and FEM analyses, to make possible the development of its own products. The use of CAD systems and FEM analyses also secures product reliability in spite of the very quick development cycles required by customers. Providing valve servicing within the guarantee period and throughout the entire service life of ARAKO products is also a very important part of ARAKO activities. The company provides a comprehensive range of services including the supply of spare parts, valve design modifications, grinding and lapping of sealing surfaces, and consulting – all of which have been made pos-

sible by company experience acquired in nuclear and conventional power plant operations both in the Czech Republic and abroad.

### COUNTRIES OF EXPORT

The industrial valves from ARAKO are used by customers all over the Czech Republic and in a number of countries worldwide. Customers particularly appreciate the reliability and long-service life in a variety of environmental and climatic conditions. Countries of Export: Slovakia, Hungary, Poland, Belorussia, Austria, Germany, France, Finland, Sweden, Lithuania, Bulgaria, Ukraine, the Netherlands, Norway, Great Britain, Italy, Bosnia and Herzegovina, Egypt, Russia, Kazakhstan, China, India, Turkey, Uzbekistan, Bangladesh, USA.

### MISSION

The ARAKO company mission statement is: “Our aim is to become a provider of effective comprehensive solutions, which include design, manufacture, supply, installation, engineering and service facilities for nuclear and thermal power plants, or for petrochemical and other industries. We will continue to steer our activities towards prosperity, stability and further development of the ARAKO spol. s r. o.”
