

STRAINER C09.2

PN 10–40; DN 15–200; T_{MAX}: 400 °C

STRAINER C09.2

APPLICATION

- water, steam, non-aggressive and aggressive substances

CONNECTION

- flanged, weld ends

OPERATION

- self-acting control

DESCRIPTION

- straight – way pattern
- drain plug
- complies with the requirements of the directive 2014/68/EU
- testing is carried out according to standard EN 12266-1; part 2

BASIC DESIGN OPTIONS

- filter screen – cell size and range of holes (mesh) as per customer requirement
- according to TRD 201

VALVE DESCRIPTION CODE

C09.2 117-540-150

VALVE INSTALLATION

Valve must always be installed in the line position – plug down. Medium correspondence with the arrow marked on the valve body. Installation and use the valve following points have to be respected:

- operating conditions must comply with operating parameters of the valve
- proper function of the valve is affected by the presence of impurities in the filter screen. It is necessary keep the filter screen clean
- medium used must comply with the corrosion resistance of the valve material
- use of mechanically damaged valves during the operation is prohibited

The service life of valves significantly extends regular maintenance and minor repairs carried out by trained personnel.
